

VWR®, TLC Aluminium Plates, Silica, Unmodified Layers

These TLC aluminium plates are suitable for easy and quick sample applications. They are flexible and can be cut to match different plate size requirements.

- High sample throughput in short time
- Pilot product for HPLC or Flash chromatography
- Suitable for screening tests

Indicator: Manganese activated zinc silica with green fluorescence for short wave UV (254 nm).

Binder: Stable in almost all organic solvents.

Particle size: 5 to 17 μm
